Construct a shipping container home:

1. Cut along the dashed lines
2. FOLD along the solid black lines so that the dark sides face out
3. Tape or glue the white tabs to the inside of the adjacent sides to form a box
4. Strengthen the corners with clear tape if needed.

Build a shipping container home!

**Shipping container dimensions:**
- 20 feet long
- 8 feet tall
- 8 feet wide
