

Lollipop Licker Differences

What differences could exist between different lollipop lickers, and how might those differences cause variation in how many licks it takes them to get to the center of a Tootsie Pop?

Different lollipop lickers could have different...	This difference could affect the number of licks it takes to reach the center of a lollipop because...	
<i>Tongue sizes</i>	<i>Lollipop lickers with bigger tongues might need fewer licks to get to the center than those with smaller tongues, because their bigger tongues remove more lollipop with each lick.</i>
