

Happy Valentine's Day!

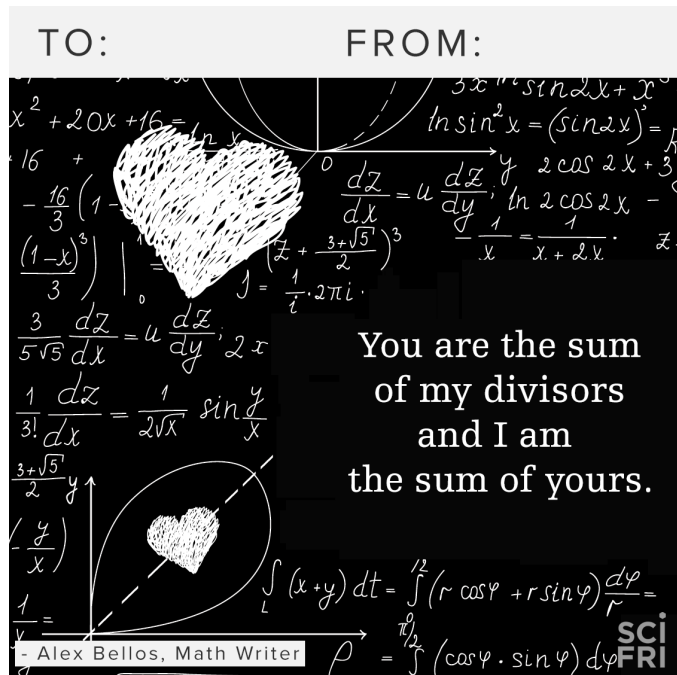

Because we love you, we made some science-tastic valentines for your geeky friends and family.

Here's how they work:

- 1) Print out this sheet;
- 2) Cut out the valentines;
- 3) Sign them and hand them out;
- 4) Let us know you used them! **Tweet us a picture @SciFri.**

Love,

science
FRIDAY

TO:

FROM:

My love for you
goes way beyond
kin selection
and reciprocal
altruism

- Jessica Salvatore, Social Psychologist
