### Communication Signal Simulation Student Handout

*Unfold your alien drawings and observe changes in the image over the course of the activity:*

	Compare the original image to the final drawing. Identify and describe the similarities and differences between the two images.	Identify and describe how the image changed with each new drawing over the course of the activity.
<b>Analog Round</b>		
<b>Digital Round</b>		
<b>Analog &amp; Digital Comparison</b>	Which round resulted in a more accurate final drawing? Support your choice with evidence from the activity.
