

Sex, Gender, Or Sexuality Clues Card Sort

Directions: Cut out the cards and four categories. Sort the cards into the category you think they belong in: gender, sex, or sexuality. If it is unclear or you are not sure, use that category instead.

GENDER	SEX	SEXUALITY
UNCLEAR/NOT SURE		

<p>A tablet is found in a gravesite that describes the person as a young woman who died in battle.</p>	<p>A skeleton is found in an area reserved for religious officials who practiced celibacy (not having intimate relationships).</p>	<p>A skeleton is found showing damage from long-term syphilis, a sexually transmitted disease.</p>
<p>The skeleton found is from a young adult who appears to have not gone through puberty yet.</p>	<p>Genetic analysis indicates that the skeleton has XY chromosomes.</p>	<p>Bone density and shape suggests that this person's primary sex hormone was estrogen.</p>
<p>Two skeletons are buried together with a shawl wrapped around them. This shawl has been found in other sites known to belong to married couples.</p>	<p>The clothing found on some human remains includes jewelry and patterns typical of men in other tombs from the same time period.</p>	<p>Objects found in the tomb include sewing supplies. Sewing in this culture during this time period was primarily done by women.</p>
